Assignment 2 — Your E-commerce Site: Static, Responsive Pages

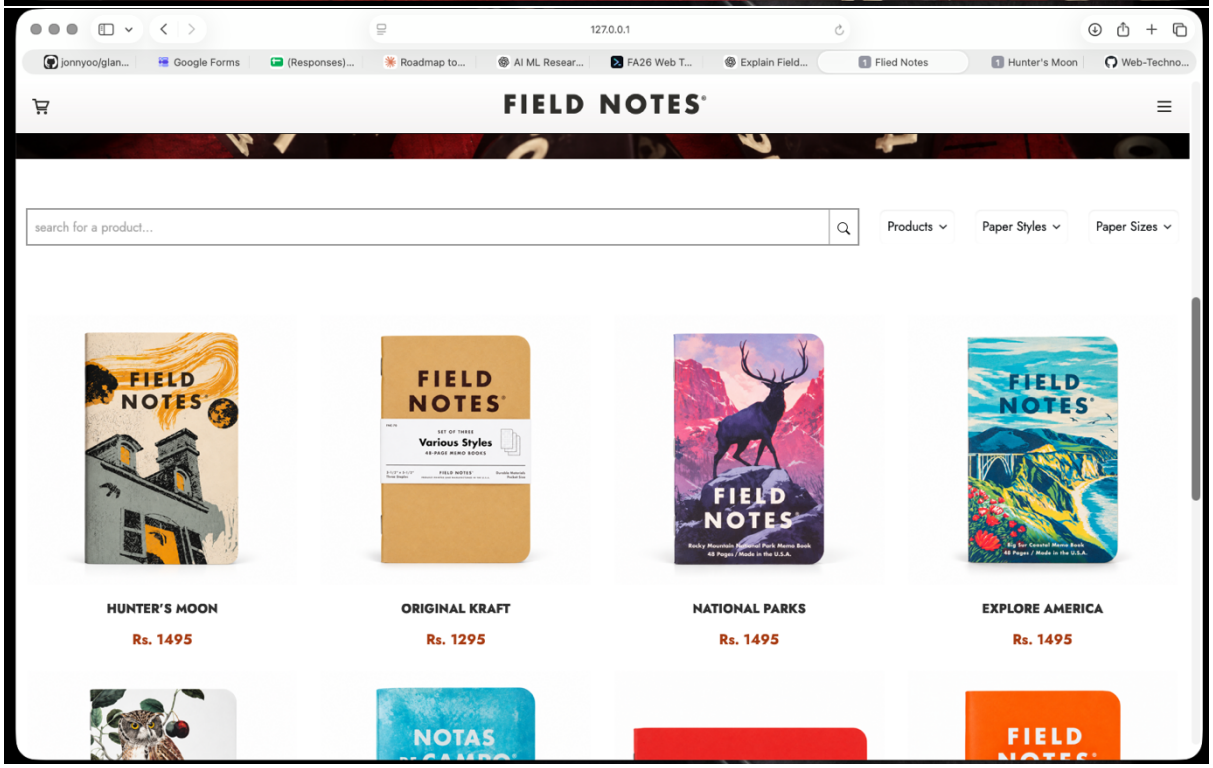

Difficulty: Easy–Medium · **Covers:** Lectures 5–10 (CSS Fundamentals through Responsive Design and Frameworks) · **Folder:** assignment-2/

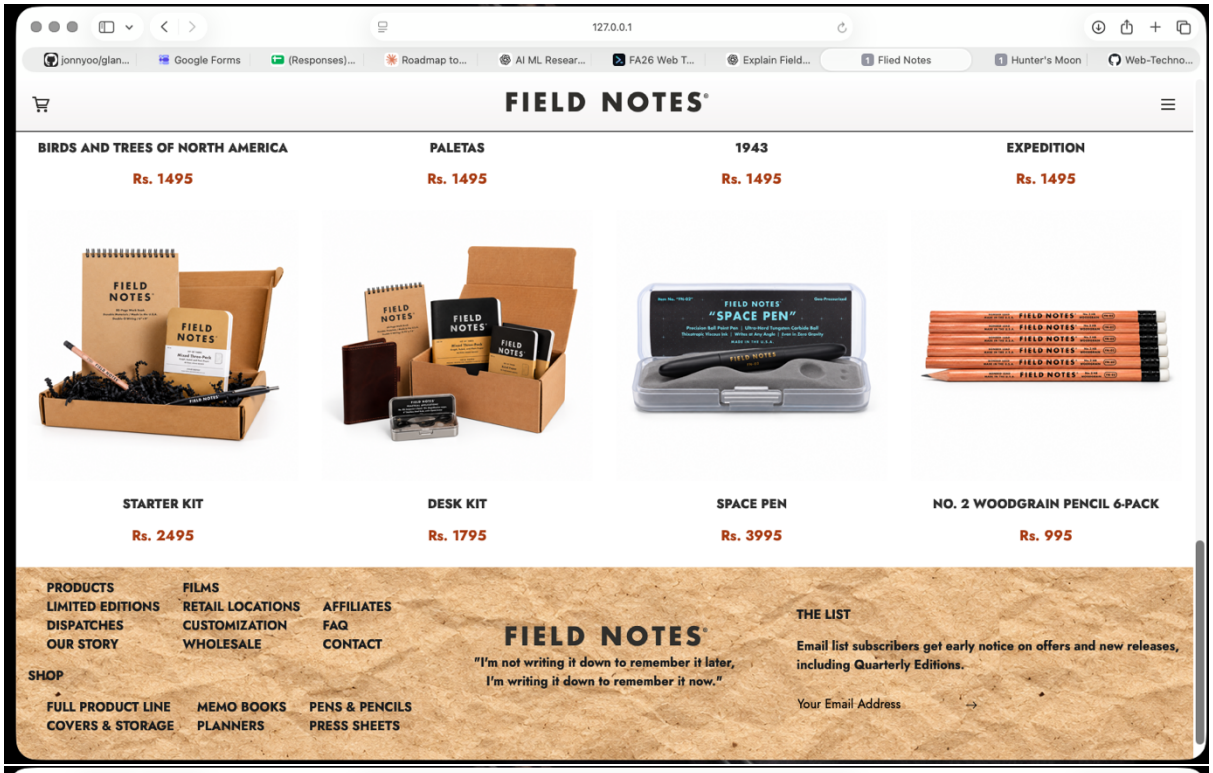

Task: Build the static, responsive front page and product page of your e-commerce site, modeled on your chosen reference site. No JavaScript yet — this assignment is entirely about layout, styling, and responsiveness.

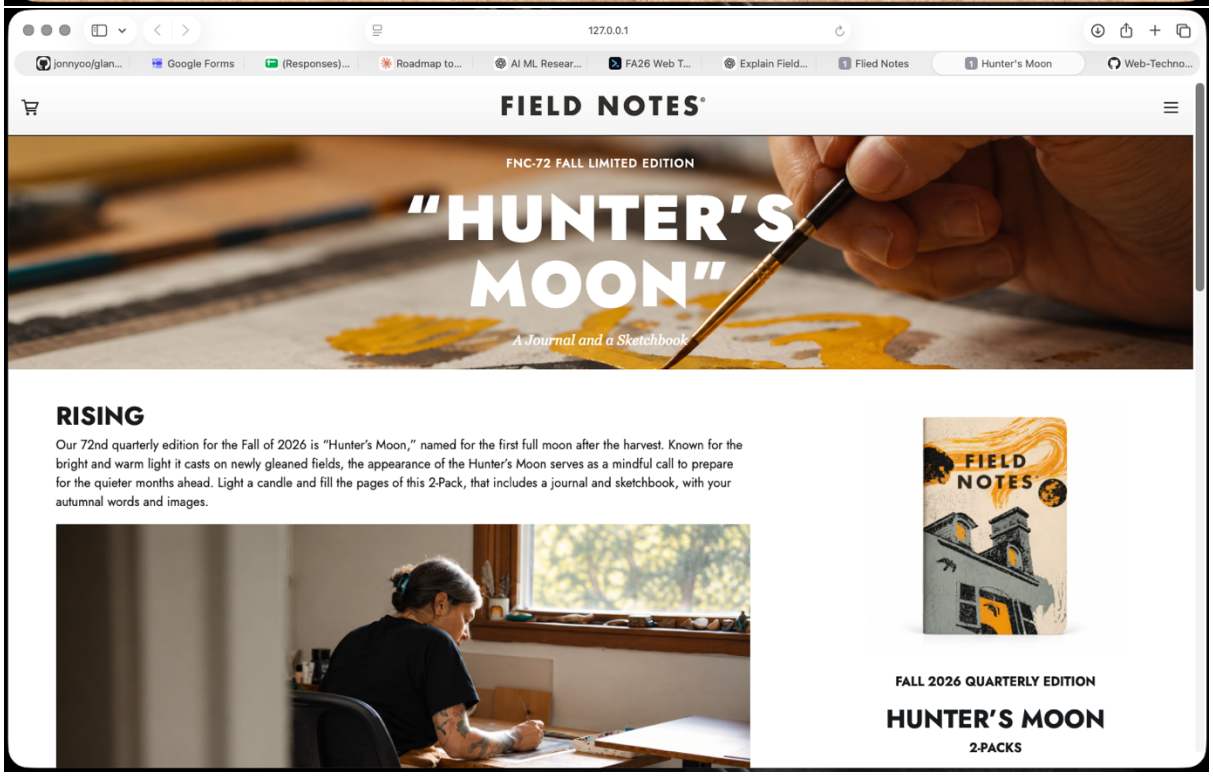

You must build:

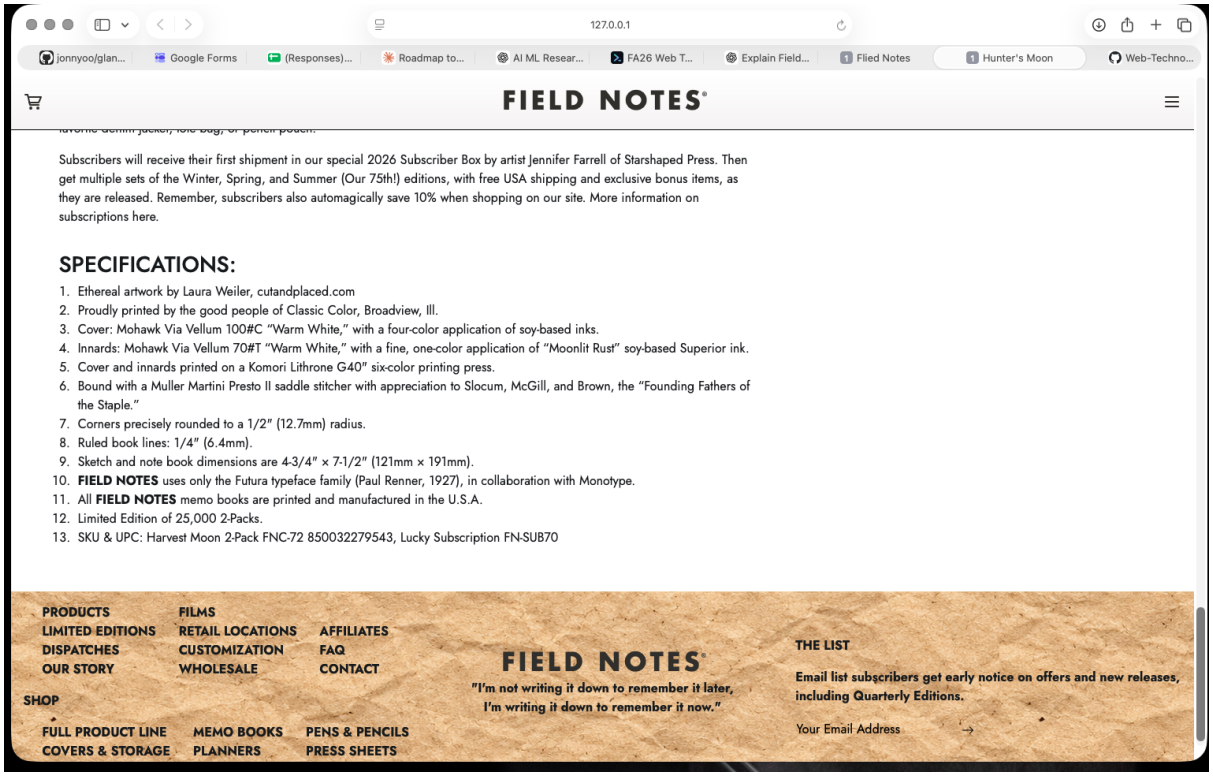

- A **homepage / product listing page** with a header (site name/logo, a nav bar, a cart icon that does not need to work yet) and a responsive grid of at least 8 product cards (image, name, price, an "Add to Cart" button that does not need to work yet).
- A **single product detail page** for one product: larger image, name, price, description, quantity selector, and an "Add to Cart" button (again, not functional yet).
- A consistent **footer** across both pages.
- The whole layout built with **Flexbox and/or CSS Grid** — no table-based layout, no absolute-positioning-everything.
- Genuine **responsiveness**: the layout must reflow sensibly at a phone width (~375px), a tablet width (~768px), and a desktop width, using media queries or your framework's responsive grid classes. Screenshot all three widths for your completion PDF.
- Either **Bootstrap or Tailwind** (your choice) used for at least the grid/layout and the navbar — this is the frameworks half of Lecture 10, and it should actually be doing real work in your layout, not just be linked and unused.

          <p>
            Our 72nd quarterly edition for the Fall of 2026 is “Hunter’s
            Moon,” named for the first full moon after the harvest. Known for
            the bright and warm light it casts on newly gleaned fields, the
            appearance of the Hunter’s Moon serves as a mindful call to
            prepare for the quieter months ahead. Light a candle and fill the
            pages of this 2-Pack, that includes a journal and sketchbook, with
            your autumnal words and images.

          <h3>BETWEEN MEMORIES AND THOUGHTS</h3>
          <p>
            Inspired in part by Ted Kooser’s lovely poem, “Abandoned House,”
            artist Laura Weiler created the dream-like artwork for the covers
            using a unique gel plate method of monoprinting, layering collaged
            images, inks, and paints that are pressed and then transferred to
            paper. We visited her home studio in Kalamazoo, Michigan to learn
            more about her inspiration and process and to capture the creation
            of the fall cover art.
